

DESTINATION EXCELLENCE

"How to manage construction projects for maximum profit potential"

Presented by: **Paul Stout** - National construction trainer and 23 year veteran of the construction industry

A Power summit Workshop for the Construction Industry

Why should you participate in this all day hands-on workshop?

You will:

- design a common sense "goal-set"
- build a "team dynamic" that will improve your operations
- adapt a working project management template to reflect, yet enhance your operations
- design components for a system that mirrors your team, facilitates your goals, and accommodates the requirements of the industry
- develop a meaningful project responsibility matrix
- establish an early issue identification "grid"
- establish a project budget
- negotiate scope and price
- create a CPM Schedule
- develop and understand a change order process
- be presented with project problems to solve
- resolve an issue before it reaches litigation
- develop a closeout matrix
- Learn in a fun, fast paced, relevant environment
- celebrate victory

Master the Essentials of Construction Project Management

Attend this Workshop if:

- You want to improve your skills
- You want a new perspective
- You need better control tools
- You are new to project management
- If you are a seasoned veteran seeking validation or looking for ways to gain advantage
- you have great ideas for developing a system but just don't have the time to make it happen

Equally beneficial to Generals Contractors, Subcontractors and Design Professionals
